

MUHAMMAD FAIZAN

Full-Stack Developer | MERN Stack

faizanlala5699@gmail.com | +92 347 1099914 | Pakistan

[Portfolio](#) | [LinkedIn](#) | [GitHub](#)

SUMMARY

Full-stack web developer specializing in the MERN stack, with hands-on experience building and deploying production-style applications featuring secure authentication, real-time messaging, image uploads, and RESTful APIs. Final-year Computer Science student (graduating 2026) seeking a software engineering role or internship to build and scale reliable web applications.

TECHNICAL SKILLS

Frontend: React, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST API Design, Socket.IO (real-time)

Database: MongoDB, Mongoose, Aggregation Pipelines

Auth & Security: JWT (access/refresh tokens), OAuth 2.0 (Google), Passport.js, Rate Limiting, Helmet

Tools & Other: Git, GitHub, Cloudinary, Recharts, Swagger / API Docs, Postman

PROJECTS

EventSnap — Event Photo-Sharing App (MERN, Cloudinary) [Live Demo](#) / [GitHub](#)

- Built a mobile-first app where event guests scan a QR code, upload photos from their phones, and view them in a live shared gallery.
- Integrated Cloudinary for image storage and CDN delivery; added JWT auth with server-side authorization for photo deletion.

Food Delivery Platform — MERN Stack [Live Demo](#) / [GitHub](#)

- Built a food ordering platform with menu and category management, cart, and a complete order flow.
- Hardened the REST API with Helmet, request rate limiting, input sanitization, and JWT authentication.

Admin Dashboard — MERN Stack [Live Demo](#) / [GitHub](#)

- Built an analytics dashboard with role-based JWT auth and product CRUD (server-side search, sort, pagination) plus CSV export.
- Implemented dashboard metrics and charts powered by a MongoDB aggregation pipeline.

Real-Time Chat Application — MERN Stack, Socket.IO [Live Demo](#) / [GitHub](#)

- Developed a real-time messaging app with direct messages, group rooms, typing indicators, read receipts, and online/offline presence.
- Secured the application with JWT authentication and added file sharing.

Authentication System — Node.js, MongoDB, Passport.js [Live Demo](#) / [GitHub](#)

- Built a production-ready auth service with JWT access/refresh tokens, Google OAuth 2.0, and refresh-token rotation.
- Hardened the API with input validation, rate limiting, and Swagger documentation.

Job Board Platform — MERN Stack [Live Demo](#) / [GitHub](#)

- Built a job portal with role-based authentication and protected routes for employers and job seekers.
- Implemented server-side search, filtering, and pagination, with RESTful APIs and responsive React interfaces.

Blog CMS — Full-Stack MERN Platform [Live Demo](#) / [GitHub](#)

- Built a blog CMS with an admin panel, role-based access control, rich-text editing (TipTap), and comment moderation.
- Integrated Cloudinary image uploads and full-text search.

EDUCATION

Bachelor of Science in Computer Science 2026

Khushal Khan Khattak University, Karak

CERTIFICATIONS

Certificate in IT — NAVTTC 2023

Diploma in IT — Technical Training Board (TTB), Peshawar 2021
